About the EA7-T10C

The EA7-T10C is an Automation Direct operator interface that is part of the C-More EA7 Series. This particular HMI is a 10.4 display with a TFT LCD Panel. The interface screen size is 10.4" and has a Color display. It features a LED backlight and can be programmed using the EA-PGMSW software. C-more programming can be done using a programming cable, USB attachment, or Ethernet cable. Installation and download is simple and the interface is user friendly. We highly recommend you let us be your go to provider for EA7 Series replacement touch panels.
